**Subject:** COUNCIL MEETING NO. 43 - 31st JULY' 14  
**Dear Hugh,**

**Herewith details of those points raised by myself during the above meeting for attachment as an appendix to the corresponding minutes:**

- 01. Transport Malta Public Consultation Meeting 3<sup>rd</sup> July'14 – Due to unforeseen problems and time constraints, the meeting originally planned to follow that with the Hon. Minister Mallia could not be held. The main reason was to notify residents about outstanding Traffic Management proposals details of which, in the circumstances, would now feature in the council magazine for purposes of obtaining feedback.**
- 02. Locality Directional Maps/Boards – More information was awaited from those councils which had installed such material of specific importance to visitors.**
- 03. Gieh is-Swieqi Annual Award – although basics completed, it was planned to launch the scheme towards the end of the year**
- 04. Triq il-Qasam – Zebra Crossing Lights outside the Corner Store and the PN Section premises still awaited repair. Such delays should no longer be tolerated.**
- 05. Lifelong Learning Courses – Executive Secretary advised that he had contacted the officials responsible from the Ministry of Education for purposes of the council being reimbursed with various outstanding amounts.**
- 06. Mica Med – Additional date required on the contractor's invoicing documentation had been ignored and it was agreed that settlement of outstanding payments to the company would be withheld pending compliance.**
- 07. ETC Seconded Worker – A replacement had yet to be employed and the Executive Secretary would further contact the entity as present day exigencies justified the presence of an additional individual.**
- 08. Additional Senior Male Clerk – For the same reason, the council could do with a suitable person to assist the Executive Secretary in coping with his ever increasing workload.**
- 09. Local Council Stationery – Printing of appropriate stationery and visiting cards were required to incorporate the council's new address. The Deputy Mayor would follow up.**
- 10. Schedule of Payments- In the absence of any additional comments to those outlined in the separate e-mail submitted to all as an attachment to the minutes, approval recommended.**
- 11. The Executive Secretary was following up acquisition of an additional mobile thereby obviating the present costly practice of calling land line numbers from mobile**
- 12. Financial Statements – Updated documentation for six months ended 30<sup>th</sup> June would be circulated in time for the next meeting.**

**With thanks and regards,**

**Alfred Curmi**
