Subject: COUNCIL MEETING NO. 40 - 26TH JUNE ' 14

Dear Hugh,

As had been agreed, herewith details of those points raised by myself for attachment as an appendix to the corresponding minutes. It was pointless submitting these before now due to prevailing logistic problems in consequence to the transfer of the council to the new premises:

01. Triq is-Swieqi – Entrance Tunnel sponsored upgrading (Mayor once again advised that official permit approval still awaited)
02. Council Meetings Streamlining online - (Exec. Sec. confirmed that completion of further technical requirements delayed commencement)
03. Locality Directional Maps – (Mayor advised that Information being obtained from those councils in whose locality these had been installed)
04. Gieh is-Swieqi Annual Award – (Details already circulated to all yet to be finalized but these would feature in the council magazine in the course of completion)
05. F.X. Ebejer Public Garden – (My proposal that low wooden fencing be installed around the outdoor exercising machine area was rejected)
06. Triq ilk-Qasam - Non functional Zebra Crossing Lights outside the Corner Store still awaited repair although Works Orders issued in April (Exec. Sec. confirmed that the contractor had undertaken to do so over the coming days)
07. Lifelong Learning Courses – (Exec. Sec. advised that reimbursement outstanding since April was still awaited but further contact would be made with Isabella Camilleri of the Miknistry of Education Permanent Secretariat)
08. Mica Med – Additional data required on the contractor's invoicing documentation had been ignored and it was agreed that settlement of any outstanding payments should be delayed pending compliance.
09. ETC Secoded Worker – A replacement had yet to be employed – Exec. Sec. was in touch with the authorities concerned as It was essential to engage a second person to support Johnny who could not cope on his own due to present day exigencies.
10. It was suggested that an official request be made to employ an additional senior clerk, ideally a male, to assist the Executive Secretary in his ever increasing workload. ,
11. Position over the issue of tenders particularly as some contracts (Lighting and Collection Household waste – (Exec. Sec. in the process of preparing necessary documentation)
12. Tennis Court Upgrading – No tenders received and a fresh call in the pipeline
13. Local Council Stationery – Had arrangements been made to print appropriate stationery and visiting Cards (No but this would be taken in hand)
14. Schedule of Payments – Unless other councillors identified any additional comments to those raised in the separate e-mail circulated to all, approval recommended but subject to appropriate action being taken as detailed.

With thanks and regards,

Alfred Curmi
